ABOUT SAMCO-MEP

Samco Electrical Mechanical works Contracting CO. LTD offer a range of services that covers the entire gamut of electro mechanical engineering solution including design, engineering, procurement, commissioning, service and facilities management. Thus providing complete solutions to design and build, through engineering procurement and construction (EPC).

Samco has been established to meet the electromechanical requirements of projects in Dubai with total commitment of the management towards quality. Samco built on the very foundations of trust, quality, commitment and customer satisfaction. We offer an extensive range of MEP solutions such as designing, engineering, project management, to installation, testing and commissioning in the housing commercial, industrial, construction and power sectors in the country. In this rapidly evolving and fast growing UAE economy where businesses are involved in a very fierce competition, we understand the impact of saving a minute on a project will have on the entire system. That's why we have a fully trained workforce equipped with smart working practices.

Samco is a sister company of EEMCO electromechanical which was established in 2006 in Ajman & Heliya was established in 2008 in Dubai sharing the same staff in higher management. These companies have been merged in the States, now it's all under the name of SAMCO and doing the MEP work.

CO. LTD has successfully undertaken and completed several electromechanical projects and provided facility in Commercial and residential buildings in the emirate of Dubai.

SAMCO has also various sub/contractors under the umbrella of Samco project contracting and successfully completed the all unique skills projects.

MESSAGE OF CEO SAMRA GROUP OF COMPANIES

As one of the leading companies in the construction Group of Companies "SGC" focuses on providing comprehensive solutions to build and design modern, cost-effective industrial and commercial buildings, improve or to replace full range of highly skilled workers that will ensure environmental sustainability.

Our commitment regarding the clients' contracts is clear since we work from the start to finish. By providing a full engineering scope from an industrial building from their scratch and proceed to help with every step to provide the best quality and efficient for implementing and with engineering alternatives supported by Group of skilled workers that meet all of our construction solutions.

By having an active role SGP used creative process and project delivery that provide a full control on the required construction resources. This enables us to plan and execute our projects with the highest commitment and excellence.

Salah Sami Mohamed Elmaghrabi
CEO SAMRA GROUP OF COMPANIES

INTRODUCTION

INTRODUCTION

INTRODUCTION

SANCO Mechanical Engineering LLC operates in a comprehensive range of industrial services, including the repair and servicing of heavy manufacturing equipment, gearboxes, pump design and hydraulic components. Our expertise extends to the refurbishment of various gearboxes, manufacturing of gears and components, and the design and production of hydraulic systems and cylinders. In the marine sector, we actively engage in refurbishment and repairs of engine components, exhaust valves, and on-site modifications. Additionally, our capabilities encompass pump and valve services offering the manufacture of pump parts and complete pumping systems as well as the repair, refurbishment and testing of valves. With qualified team engineers and technicians, we are committed to delivering high-quality solutions across diverse industrial sectors.

Our Range of Services Include

- Heavy Machine Shop
- Marine Hydraulic Services
- Gas & Noise Control Systems
- Nitrogen Jet / CNC Plasma
- Diesel Fuel System Services
- Compressors & Expansion
- Container Refurbishment
- Diesel Main Pump Services
- Storage Tanks Rehabilitation & Erection
- Structural Steel Fabrication & Erection
- Boilers & Heat Exchangers & Pipe Line
- Oil Refinery & Power Plants Services
- General Industry Shutdown Services
- Machine Shop Works & Metal Casting
- Electro-mechanical Works
- Oil & Gas Mechanical works
- Oil & Gas Instrumentation &
- Storage & Drilling
- Steel & Aluminium
- Oil & Gas Cell Structural
- Desalination Plants
- Power Stations Contracting
- Air-Conditioning
- Ventilation & Air Filtration Systems
- Installation & Maintenance
- Plumbing & Sanitary
- Electrical Piping Contracting
- Carpentry & wood Flooring

INTRODUCTION

All type of Steel Fabrication & Erection

SANCO mechanical engineering is your go-to expert for all steel fabrication & erection needs. Our skilled professionals specialize in precise engineering, welding, cutting, and shaping steel components. From conceptualization to installation, we ensure top-notch quality and safety in every project. Choose **SANCO** for unparalleled expertise in mechanical engineering craftsmanship.

INTRODUCTION

Storage Tank Fabrication, Erection & Maintenance Work

SAMCO is your expert in storage tank fabrication, erection & maintenance. Our skilled team ensures seamless project execution, emphasizing precision and efficiency. Trust us for top-quality solutions in storage tank services, from fabrication to ongoing maintenance.

VISION MISSION VALUES

VISION To create the most reliable name in construction industry through the region by not missing to provide and develop high quality services and working on the latest technology infrastructure etc.

MISSION Our mission is to provide general contracting services to our clients distinguished as from others based on the needed time budget and quality. CORE VALUES

SAMCO-MEP subscribes to two core values as mandated by the Board – Customer Values and Employee Values.

CUSTOMER VALUES

- Customer service is our highest priority.
- Customer satisfaction is guaranteed.
- We develop a long-term partnership.
- We keep our customers informed.
- Delay of scheduled services is promptly reported.
- We understand work at a mutually agreeable date and time.
- We will provide orientation & training to all of our customers regarding our organization and services.

EMPLOYEE VALUES

- We are an equal opportunity employer.
- We ensure a high quality of work life that leads to ongoing personal and professional satisfaction.
- We commit to train all employees to develop competence, confidence and character, which will promote meaningful growth of workmanship.
- We will require employees to implement ideas for improving service delivery.
- Market competitive pay and benefits are a top priority at SAMCO, and we constantly monitor the marketplace to ensure that our professionals' compensation is competitive.
